Sahara Edging Stone

The look of slightly spongy stone resist to weather conditions without any problem.

The sahara edging stone is made out of natural materials and therefore, we cannot guarantee the evolution of colors that may appear in time,as it happens with stones in a natural environment.These nuancesd give a particular charm to the reconstituted stone.

Sahara line is, among the classic lines, one of themost complete ones with numerous installation options.

We deliver Sahara slabs and toppings in sandy yellow color.
