Biological activator

BIO 7 SEPTIC TANK SHOCK

BIO 7 SHOCK is a natural bacterial activator for septic tanks consisting of a powerful formula based on super vitamin capsules and selected microorganisms. It has the following characteristics:

- Generates bacterial activity in new septic tanks or after emptying existing tanks.
- Regenerates septic tanks or extended absences or the use of bleach or chemicals.
- Eliminates and prevents odors that emanate from tanks without bacterial activity, while unclogging drains.

Biological decomposer

BIO 7 G. FOR GREASE DEPOSITS IN PIPES

Biological treatment formulated to rapidly remove grease clogs in pipes, drains, and reservoirs. Quickly eliminates odors and clogs with its powerful enzyme formula, ensuring a complete decomposition of grease and oils. Regular maintenance with BIO 7 G will considerably prolong the life of your tank.

Wasp trap

Works like a trap: insects are driven to the inside of the trap, attracted by the bait.

Once inside, the wasps cannot escape and die. This trap is most effective when hung in a high place (like a tree branch).

- Highly effective product for placement around the pool, allowing your family to swim without the risk of wasps.

Biological products / Pesticide / Rat Poison

Wasp bait

Natural product, developed from extensive studies in wasp, bee and hornet behavior. Once diluted with water, the bait emits an odor that attracts wasps, bees, hornets, as well as other insects.

- For use with the wasp trap.
